GMT the los angeles river
its pdf - The Los Angeles
River (L.A. River) starts in
the Simi Hills and Santa
Susana Mountains and
flows through Los Angeles
County, California, from
Canoga Park in the western
end of the San Fernando
Valley, nearly 51 miles (82
km) southeast to its mouth
in Long Beach. Several
tributaries join the once
free-flowing and frequently
flooding river, forming
alluvial flood plains along
its banks.

Angeles River - Wikipedia -
The Los Angeles flood of
1938 was one of the largest
floods in the history of Los
Angeles, Orange, and
Riverside Counties in
southern California. The
flood was caused by two
Pacific storms that swept
across the Los Angeles
Basin in February-March
1938 and generated almost
one year's worth of
precipitation in just a few
days. Between 113â€“115
people were killed by the
flooding. Los Angeles
flood of 1938 - Wikipedia -
Los Angeles, officially the
City of Los Angeles (also
called L.A.), is a city in
southern California, in the
United States. There are
3,847,400 people living in
the city, and over 18 million
people in the L.A. region.
The city has an area of 1200
square kilometers. Los
